EDUCATION

Williams College

B.A. in Mathematics and Computer Science

Williamstown, MA

Expected June 2028

Cumulative GPA: 3.85/4.00 · Mathematics GPA: 4.00/4.00 · Dean's List every semester

Relevant coursework: Data Structures & Advanced Programming, Computer Organization, Principles of Programming Languages, Probability

Fall 2026: Statistics and Data Analysis, Algorithm Design & Analysis, Distributed Systems

Advanced mathematics: Commutative Algebra, Algebraic Number Theory, Galois Theory, Topology

EXPERIENCE

Russell Research

Summer Intern

East Rutherford, NJ

Summer 2024, Summer 2025

- Trained models from scratch in Python and PyTorch to identify characteristics of survey questions; compared convolutional and recurrent networks and explored graph-based approaches.
- Investigated duplicate survey questions to keep training and validation data separate; explained model results and limitations at handoff.
- Contributed to a C#/.NET pipeline to standardize market research surveys across XML, JSON, and Word documents.

Williams College

Mathematics Teaching Assistant

Williamstown, MA

Fall 2025, Fall 2026

- Topology (Fall 2026): Hold help hours and grade problem sets as sole TA for 19 students (10 hours/week).
- Abstract Algebra (Fall 2025): Held weekly office hours and graded proofs for a 25-student course.
- Iterated on an Excel workbook throughout the semester to anonymize grading, calculate scores, and automatically generate individual student feedback.

Williams College

Number Theory Research Assistant

Williamstown, MA

Spring 2026

- Worked with a classmate under Prof. Allison Pacelli to explain the visual properties of patterns within modular multiplication circles; co-proved results connecting these patterns to epicycloids and hypocycloids.
- Drafted a paper; presented at the Hudson River Undergraduate Mathematics Conference, April 2026.

Williams College

Collaborative Pianist

Williamstown, MA

Fall 2024–Present

- Performed 50+ pieces as a paid accompanist for student lessons, senior recitals, and chamber choir.
- Invited back by the choir director for Fall 2026; accompanied all auditions for selective voice lessons in a single three-hour session.

SKILLS & INTERESTS

Technical: Python, PyTorch, Java, C#/.NET, C, Excel, LaTeX; R (introductory coursework)

Credential: Actuarial Exam P (Probability), passed July 2026

Languages: English (native), Italian (fluent)

Interests: Piano and composition, climbing, hiking, board games
